FRAUD!

Republican Rascality to Be Rebuked.

Democratic Clubs of Cincinnati Vote $7,500 to Do It.

The Committee of One Hundred Proceed Against the Negligent Chief of Police.

THE PRISON YAWNS.

The Election Frauds at Cincinnati to be Prosecuted.

By Telegraph to THE SENTINEL.

CINCINNATI, Oct. 17.—Three democratic clubs held meetings last night and adopted resolutions charging gross frauds by the republicans in the recent election in Hamilton county, in debauching judges and clerks and in purchasing votes. They declared in favor of the prompt prosecution of all offenders. To this end the Jefferson club appropriated $2,500, the Duckworth club $3,500 and the West End club $1,500.

ARRAIGNING THE GUILTY.

The attorneys of the committee of one hundred engaged in the prosecution of offenders against the election laws at the recent election, appeared in police court and preferred charges to-day against Edwin Hudson, chief of police, for dereliction of duty in failing to serve warrants placed in his hands by the committee, October 8 and 9, for the arrest of seven men charged with violation of the registry law. The attorneys stated that one of the men against whom warrants were issued is now a policeman, another served as a special policeman on election day and one or two others were well known to Colonel Hudson and the police. Colonel Hudson explained that he gave the warrants to lieutenants. The court ordered the lieutenants to be brought in to answer and continued the case against Hudson until Monday.

WASHINGTON, Oct. 17.—The president appointed James N. Childs, of Maine, United States consul at Guelph, Canada, and James H. Trumbull United States consul at Talcahuano, Chili.

ANOTHER HEAD WHACKED OFF.

WASHINGTON, Oct. 16.—The secretary of the treasury has requested the resignation of Mr. Benjamin P. Davis, deputy fourth auditor of the treasury and has selected his successor, but the name is withheld for the present. The request for Mr. Davis' resignation was made one week ago, but has not been complied with. It is said at the treasury department to-day, that changes will be made gradually in a number of other offices of a similar grade.

BOYCOTTING THE CHRISTIANT IN CHINA.

The report has been received by the secretary of state from the consul at Canton, China, that circulars have been issued by Shanghai and Changhow committees regarding the persecution of Christians in China The consul says the material in the pamphlet is from the pens of eminent American, English and German missionaries and is published with the purpose of disseminating information that will lead to better provision being made by the western powers for protecting the native Christians from persecution in China. The persecu ions of which the missionaries complain, comprise the robbing or destruction of chapels, robbing, beating, blackmailing and boycotting of native Christians, often with the encouragment of the local authorities and the refusal of the authorities to punish the offenders, protect the Christians or take measures to secure restitution. It is not intended to leave the impression that the Chinese authorities have, in every case, been unwilling to deal justly by native Christians; on the contrary the not infrequent aid rendered by l cal officials in suppressing outbreaks is gratefully acknowleged.

IMPORTANT TO SOLDIER CLAIMANTS.

Second Comptroller Maynard has made a decision in the case of Major J. L. Middleton, late fireman in the United States navy, that upon the discharge of the claimant the government cannot retain any part of the local bounty received at the time of the enlistment. Middleton enlisted in Aug. 1864, for two years and, received $300 bounty to the town from which he was credited. He was discharged in Aug. 1855, because the government no longer required his services. When paid off the paymaster deducted from his pay $150, being one-half the bounty received. The comptroller holds that the deduction was unathorized by law: that the local bounty of the claimant belonged to him by virtue of a contract made with the municipality paying it, and that the United States could not lawfully appropriate any part of it, to its own use.

NOTES

The president has virtually decided on a postponement of the appointment of a superintendant of the coast and Geoloigical Survey until after the meeting of congress.

Almost a Riot.

By Telegraph to THE SENTINEL.

COLUMBUS, Ohio October 16.—Great excitement was created in front of the Democratic headquarters, at 3 o'clock this afternoon, and a riot narrowly avoided. Soon in the afternoon, some one about the headquarters, caused to be strung across the street, in large form, a bloody shirt with the inscription: "New North, New South, a new deal. The last of the bloody shirt."

It is stated that a G. A. R. man called and gave the committe a hslf hour to have the shirt taken down and by order of a member of the committee it was being done when a man from the Republican headquarters grabbed the garment and after soaking it with coal oil, returned and burned the shirt in front of the Democratic headquarters. A crowd of several hundred gathered and the greatest excitement prevailed.

The counsels of cooler heads prevailed, and after much loud talk and threats the crowd dispersed

The yelling caused the people to leave their business while many locked their doors. The Republicans denounce it as an insult, and both sides are condemned by better citizens, for participating in a move, which in the present political heat, might have led to great loss of life and property.

Thieves broke into Wilson & Co's. coal office last night and cracked the safe. They carried away the iron money box containing $1, Mr. Wilson having taken $300 out of the safe last evening. The damage to the safe amounts to $50. There is no clue to the thieves.

LONDON, Oct. 17.—The *News* says Lord Hartington no longer leads the liberals, but that the honor rests on Lord Chamberlain. The article is inspired by both men.

CONSTANTINOPLE, October, 16.—A large force of Turkish troops has been ordered to advance in the direction of Nissa: A battle between the Servians and Turks is imminent.

The ambassadors have presented a note to the, Porte in which they say further time will have to be afforded them, so as to obtain, a complete, European understanding respecting the Roumelian difficulty, and then advise the Sultan to continue his peaceful policy. They do not, however, dispute the Porte's right to send troops into Roumelia, to assert his rights to that province. It is generally believed the powers have advised Bulgaria, Servia and Greece, more strongly than heretofore, to remain quiet The Porte's note regarding the arrangements of Greece and Servia gave the powers ground to protest against their warlike attitude. The report that Greece offered to form an alliance with Turkey is unfounded. The Porte considers the note of the ambassadors satisfactory, but has intimated he will not recognize the Bulgarian union, no matter what the uitimate result of the conference may be. M. Nelidoff, the Russian ambassador, has refused to receive M. Petroff and M. Tehamakoff, delegates who had been commissioned by Prince Alexander to assure the Porte that peace and order reigned in Roumelia.

LONDON, October 16.—The Seryians crossed the Bulgarian frontier near Charkoi. They are advancing toward Sofia and are now near Dragoman pass. King Milan is in command. A panic prevails at Sofia. Two battalions of infantry have gone to defend Dragoman pass. It is expected that Sofia will be captured by a coupe de main, as Austria has warned King Milan that whatever may be the issue of the present trouble, it will be useless for him to expect support from Austria. The railway companies in Austria and Hungary, and the Danubian navigation company have been notified to prepare for the transportation of troops and munitions of war.

BOSTON, October 16.—The Commercial Bulletin says it has information through letters from Para, of alleged frauds upon the Brazilian government, through the evasion of the export duty of 22 cents a pound upon India rubber, by an unnamed rubber house at Para, which is intimately connected with a New York firm. This firm handles about 4,000,000 pounds of rubber per annum and its evasions of the Brazilian revenue are put as high as $1,000,000, within the past two or three years. It has been enabled to do this, so it is said, through the connivance of Brazilian officials.

Den of Thieves.

DETROIT, Mich., October 16.—Last night the Arctic restaurant, a thieves resort, was the scene of a desperate fight between the police and a gang of burglars they were after. The place has long been under surveillance, and last night officers were detailed to capture all who could be found. Over the saloon is a poker room, and in this were several burglars, who offered resistance. The door was burst in, but the officers were driven back and with the help of part of the force who were without the building, the men were finally forced out of the room. They came out with loaded revolvers but were received in like manner, the officers shooting two of them, one fatally. A woman belonging to the house was slightly wounded. Charles Strong, shot below the left shoulder blade, died at half-past ten this morning. The others arrested were "Con" Cane and "Billy" McBrearty. Strong, Cane and McBrearty are noted criminals, who have eluded justice for some time A large amount of stolen property was recovered and burglar's tools found.

"THE LORD'S RAZOR."

His Weapons Not for Mortal Hands,

And Not to be Used Recklessly on Other Men.

His Judgments are for Him Alone to Pronounce and Execute.

Dr. Talmage preached last Sunday morning on the subject, "The Lord's Razor." The Brooklyn Tabernacle was crowded. At all the services held there are present people from all parts of this land and from foreign lands. One characteristic of the audience is the great number of clergymen present. Before the sermon Dr. Talmage read and expounded the twenty-fourth chapter of the First Book of Samuel. the story of David allowing Saul, his enemy, to escape, taking only a piece of his robe, by which Saul might afterward see that David had him in his power. The opening hymn was:

"The morning light is breaking,
The darkness disappears,
The sons of men are waking
To penitential tears."

Dr. Talmage's text was from Isaih vii, 20: "In the same day shall the Lord shave with a razor that is hired, namely, by them beyond the river, by the king of Assyria." He said:

THE BIBLICAL FIGURES.

The bible is the boldest book ever written. There are no similitudes in Ossian or the Illad, or the Odyssey, so daring. Its imagery sometimes seems on the verge of the reckless, but only seems so. The fact is that God would startle and arouse and propel men and nations. A tame and limping similitude would fail to accomplish the object. While there are times when He employs in the bible, the gentle dew and the morning cloud and the dove and the daybreak, in the presentation of the truth, we often find the iron chariot, the lightning, the earthquake, the spray, the sword, and, in my text, the razor.

This keen-bladed instrument has advanced in usefulness with the ages. In bible times and lands the beard remained uncut, save in seasons of mourning and humiliation, but the razor was always a suggestive symbol. David says of Doeg his antagonist: "Thy tongue is a sharp razor, working deceitfully;" that is, it pretends to clear the face, but it is really used for deadly incision. In this text this weapon of the toilet appears under the following circumstances: Judea needed to have some of its prosperities cut off and God sends against it three Assyrian kings; first Sennacherib, then Esrahadden and afterward Nebuchadnazzer. These three sharp invasions, that cut down the glory of Judea, are compared to so many sweeps of the razor across tha face of the land. And these circumstances were called a hired razor, because God took the kings of Assyria, with whom he had no sympathy, to do the work and paid them in palaces and spoils and annexations. These kings were hired to execute the divine behests. And now the text, which on its first reading may have seemed trival or inapt, is charged with momentous import: "In the same day shall the Lord shave with a razor that is hired, namely, by them beyond the river, by the king of Assyria."

Well, if God's judgments are razors, we had better be careful how we use them on other people. In careful sheaths these domestic weapons are put away, where no one by accident may touch them, and where the hands of children may not reach them. Such instruments must be carefully handled, or not handled at all. But how reckelssly some people wield the judgments of God! If a man meet with a business misfortune, how many here are ready to cry out, "That is a judgment of God upon him because he was unscrupulous, or arrogant, or overreaching, or miserly. I thought he would get cut down. What a clean sweep of everything! His city house and his country house is gone. His stables emptied of all the fine bays and sorrels and grays that used to prance by his door. All his resources overthrown and that he prided himself on tumbled into demolition. Good for him!"

Stop, my brother! Don't sling around to freely the judgments of God, for they are razors. Some of the most wicked business men succeed, and they live and die in prosperity, and some of the most honest and conscientious are driven into bankruptcy. Perhaps his manner was unfortunate, and he was not really as proud as he looked to be. Some of those who carry their head erect and look imperial are humble as a child, while many a man in seedy coat and slouch hat and unblacked shoes is as proud as Lucifer. You can not tell by a man's look. Perhaps he was not unscrupulous in business, for there are two sides to every story, and every body that accomplishes anything for himself or others gets industriously lied about. Perhaps his business misfortune was not a punishment, but the fatherly discipline to prepare him for heaven, and God may love him far more than he loves you who can pay dollar for dollar, and are put down in the commercial catalogues as All Whom the Lord loveth he gives $400,000 and lets die on an embroidered pillow? No; whom the Lord loveth he chasteneth.

BET TER KEEP YOUR HAND OFF THE LORD'S RAZORS,

Lest they cut and wound people that do not deserve it. If you want to shave off some of the bristling pride of your own heart do so, but be very careful how you put the sharp edge on others.

How I do dislike the behavior of those persons who, when people are unfortunate, say: "I told you so; getting punished; served him right." If these I-told-you-sos got their deserts they would long ago have been pitched over the battlements. The mote in their neighbor's eye, so small that it takes a microscope to find it, gives them more trouble than the beam which obscures their own optics. With an air sometime supercilious and sometimes Pharisaical, and always blasphemous, they take the razor of divine judgment and sharpen it on their own hard hearts, and then go to work on men sprawled out at full length under gigantic disaster, cutting mercilessly. They begin by soft expressions of sympathy and pity and half praise, and lather the victim all over before they put on the sharp edge. Let us be careful how we shoot at others, lest we take down the wrong one, remembering the servant of William Rufus, who shot at a deer, but the arrow glanced against a tree and killed the king. Instead of going out with shafts to pierce and razors to cut, we had better imitate the friend of Richard, Cœur de Lion, who in the war of the Crusades was captured and imprisoned, but none of his friends knew where. So his disciple went around the land, from penitentiary to penitentiary, and sang at each window a snatch of song that Richard, Cœur de Lion, had taught him in other days. And one day coming before a jail where he suspected his king might be incarcerated he sang two lines of song, and immediately King Richard responded from his cell with the other two lines, and so his whereabouts were discovered, and immediately a successful movement was made for his liberation.

So let us go up and down the world with the music of kind words and sympathetic hearts, serenading the unfortunate and trying to get out of trouble men who have noble natures, but by unforeseen circumstances have been incarcerated, thus liberating kings. More hymn-book and less razor.

Especially ought we to be apologetic and merciful toward those who, while they have great faults, have also great virtues. Some people are barren of virtues. No weeds, verily, but no flowers. I must not be too much enraged at a nettle along the fence if it be in a field containing forty acres of ripe Michigan wheat. At the present time, naturalists tell us, there is on the sun a spot twenty thousand miles long, but from the brightness and warmth I conclude it is a good deal of a sun yet.

GOD'S PROVIDENCE PRECISE.

Again, when I read in my text that the Lord shaves with the hired razor of Assyria, the land of Judea, I bethink myself of the precision of God's providence. A razor swung the tenth part of an inch out of the right line means either failure or laceration, but God's dealings never slip, and they do not miss by the thousandth part of an inch the right direction. People talk as though things in this world were at loose ends. Cholera sweeps across Marseilles and Madrid and Palermo, and we watch anxiously. Shall the epidemic sweep Europe and America? People say: "That will entirely depend on whether the inoculation is a successful experiment; that will entirely depend on quarantine regulations; that will depend on the early or late appearance of frost; that epidemic is pitched into the world and it goes blundering across the continents, and it is all guesswork, and an appalling perhaps." My friends, I think perhaps that God had something to do with it, and that His mercy may have in some way protected us, that He may have done as much for us as the quarantine and the health officers. It was right and a necessity that all caution should be used, but there has come enough macaroni from Italy, and enough grapes from the south of France, and enough rags from tatterdemalions, and hidden in these articles of transportation enough choleraic germs to have left by this time all Brooklyn mourning at Greenwood, and all Philadelphia at Laurel Hill, and all Boston at Mount Auburn. I thank all the doctors and quarantines, but more than all, and first of all, and last of all, and all the time, I thank God.

In all the six thousand years of the world's existence there has not one thing merely "happened so." God is not an anarchist, but a King, a Father. When little Tad, the son of President Lincoln, died, all the land sympathized with the sorrow in the white house. He used to rush into the room where the cabinet was in session, and while the most eminent men of the land were discussing the questions of national existence. But the child had no care about those questions. Now, God the Father and God the Son and God the Holy Ghost are in perpetual session in regard to this world and kindred worlds. Shall you, His child rush in to criticise, or arraign, or condemn the divine government? No. The cabinet of the eternal? Three can govern and will govern in the wisest and best way, and there never will be a mistake, and, like a razor skilfully swung, shall cut that which ought to be cut and avoid that which ought to be avoided. Precision to the very hair-bredth. Earthly time-pieces may get out of order and strike wrong, saying it is one o'clock when it is two, or two when it is three. God's clock is always right, and when it is one it strikes one, and when it is twelve it strikes twelve, and the second-hand is as accurate as the minute hand.

THE JUDGMENT OF THE NATIONS.

Further, my text tells us that God sometimes shaves nations. "In the same day shall the Lord shave with a razor that is hired." With one sharp sweep he went across Judea, and down went its pride and its power. In 1861 God shaved our nation. We had allowed to grow Sabbath desecration, and oppression, and blasphemy, and fraud, and impurity and all sorts of turpitude. The South had its sins, and the North its sins, and the East its sins, and the West its sins. We had been warned again and again, and we did not heed. At length the sword of war cut from the St. Lawrence to the gulf, and from Atlantic seaboard to Pacific seaboard. The pride of the land, not the cowards, but the heroes, on both sides went down. And that which we took for the sword of war was the Lord's razor. In 1862 again it went across the land. In 1863 again. In 1864 again. Then the sharp instrument was encased and put away. Never in the history of the ages was any land more thoroughly shaved than during those four years of civil combat; and, my brethren, if we do not quit some of our individual and national sins the Lord will again take us in hand. He has other razors within reach besides war: epidemics, droughts, deluges, plagues—grasshoppers and locusts—or our overtowering success may so far excite the jealousy of other lands that, under some pretext, the great nations of Europe and Asia may combine to put us down.

This nation, so easily approached on north and south and from both oceans, might have on hand at once, more hostilities than were ever arrayed against any one power. We have recently been told by skillful engineers that all our fortresses around New York harbor could not keep the shells from being hurled from the sea into the heart of these great cities. Insulted China, the wealthiest of all nations, as will be realized when her resources are developed, will have adopted all the modes of modern warfare and at the Golden Gate may be discussing whether Americans must go. If the combined jealousies of Europe and Asia should come upon us we should have more work on hand than would be pleasant. I hope no such combination against us will ever be formed, but I want to show that as Assyria was the hired razor against Judea and Cyrus, the hired razor against Babylon and the Huns, the hired razor against the Goths, there are now many razors that the Lord could hire, if because of our national sins, he should undertake to shave us. In 1870 Germany was the razor with which the Lord shaved France. England is the razor with which very shortly the Lord will shave Russia.

But nations are to repent in a day. May a speedy and world wide coming to God hinder on both sides the sea all national calamity. But do not let us as a nation, either by unrighteous law at Washington or bad lives among ourselves, defy the Almighty. One would think that our national symbol of the eagle might sometimes suggest another eagle—that which ancient Rome carried. In the talons of that eagle were clutched at one time Britain, France, Spain, Italy, Dalmatia, Rhœtia, Noricum, Pannonia, Mœsia, Dacia, Thrace, Macedonia, Greece, Asia Minor, Assyria, Phœnicia, Palestine, Egypt and all Northern Africa, and all the islands of the Mediterranean—indeed, all the world that was worth having a hundred and twenty millions of people under the wings of that one eagle. Where is she now? Ask Gibbon, the historian, in his prose poem, the "Decline and Fall of the Roman Empire." Ask her gigantic ruins straggling their sadness through the ages, the screech owl at windows out of which world-wide conquerors looked. Ask the day of judgment when her crowned debauchees, Commodus and Pertinax and Caligula and Diocletian shall answer for their infamy? As men and as nations let us repent, and have our trust in a pardoning God rather than depend on former successes for immunity. Out of the thirteen greatest battles of the world Napoleon had lost but one before Waterloo. Pride and destruction often ride in the same saddle.

GOD'S SERVANTS.

But notice once more, and more than all in my text, that God is so kind and loving that when it is necessary for Him to cut He has to go to others for the sharp-edged weapon. "In the same day shall the Lord shave with a razor that is hired." God is love. God is pity. God is help. God is shelter. God is refuge. There are no sharp edges about Him; no thrusting points; no instruments of laceration. If you want balm for wounds, He has that. If you want salve for divine eyesight, He has that. But if there is sharp and cutting work to do which requires a razor, that He hires. God has nothing about Him that hurts save when dire necessity demands, and then He has to go clear off to some one else to get the instrument. This divine geniality will be no novelty to those who have pondered the Calvarean massacre, where God submerged himself in human tears, and crimsoned himself from punctured arteries, and let the terrestial and infernal worlds maul Him until the chandeliers of the sky had to be turned out, because the universe could not endure the indecency. Illustrious for love He must have been to take all that as our substitute, paying out of his own heart the crimson price of our admission at the gates of heaven. King Henry II., of England, crowned his son as king, and on the day of the coronation put on a servant's garb and waited, he, the king, at the son's table, to the astonishment of all the princes. But we know of a more wondrous scene, the King of heaven and earth offering to put on you, his child, the crown of life, and in the form of a servant waiting on you with blessing. Extol that love, all painting, all sculpture, all music, all architecture, all worship! Dresdenian gallery let Raphael hold him up as a child, and in Antwerp Cathedral let Rubens hand him down from the cross as a martyr, and Handel make all his oratorio vibrate around that one chord, "He was wounded for our transgressions, bruised for our iniquity." But not until all the redeemed get home and from the countenances of all the piled up galleries of the ransomed shall be revealed the wonders of redemption, shall either man or seraph or archangel know the height and depth and length and breadth of the love of God.

A MONUMENT STILL BUILDING.

At our national capital a monument in honor of him who did more than any one to achieve our American independence was for scores of years in building, and most of us were discouraged and said it would never be completed. And how glad we all were when, in the presence of the highest officials of the nation the work was done! But will the monument to Him who died for the eternal liberation of the human race ever be completed? For ages the work has been going up; evangelists and apostles and martyrs have been adding to the heavenly pile, and every one of the millions of the redeemed, going up from earth, has made to it contributions of gladness; and weight of glory is swung to the top of other weight of glory, and layers of hosannas on layers of hosannas, higher and higher as the centuries go by, higher and higher as the whole millenniums roll, sapphire on the top of jasper, sarbonyx on the top of chalcedony, and chrysoprasus above topaz, until far beneath shall be the walls and towers and domes of the great capitol, a monument forever and forever rising, and and yet never done. "Unto Him who hath loved us and washed us from our sins in His own blood, and made us kings and priests forever." Alleluia, amen.

When I again awoke I took another dose and from that time I have not had rheumatism, but continue to use the bitters as a precaution against the return of the complaint."

SKIN, SCALP, BLOOD

Cleansed, Purified and Beautified by the Cuticura Remedies.

Hundreds of letters in our possession, copies of which may be had by return mail, repeat this story: I have been a terrible sufferer for years from diseases of the skin and blood; have been obliged to shun public places by reason of my disfiguring humors; have had the best physicians; have spent hundreds of dollars, and got no relief until I used the Cuticura Remedies, which have cured me, and left my skin and blood as pure as a child's.

COVERED WITH SALT RHEUM.

Cuticura Remedies are the greatest medicines on earth. Had the worst case of Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Resolvent, internally, and Cuticura and Cuticura Soap, externally.

Newark, O. J. W. ADAMS.

HEAD, FACE AND BODY RAW.

I commenced to use your Cuticura Remedies last July. My head and face and some parts of my body were almost raw. My head was covered with scabs and sores, and my suffering was fearful. I had tried everything I had heard of in the East and West. My case was considered a very bad one. I have now not a particle of Skin Humor about me, and my case is considered wonderful.

ECZEMA FROM HEAD TO FEET.

Charles Eayre Hinkle, Jersey City Heights, N. J. writes: "My son, a lad of twelve years, was completely cured of a terrible case of Eczema by the CUTICURA REMEDIES. From the top of his head to the soles of his feet was one mass of scabs." Every other remedy and physicians had been tried in vain.

NOTHING LIKE CUTICURA.

The half has not been told as to the great curative powers of the cuticura remedies. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the cuticura remedies. CHAS. A. WILLIAMS.

Frightful Case

Of a Colored Man!

I contracted a fearful case of blood poison in 1883. I was treated by some of the best physicians in Atlanta. They used the old remedies of mercury and potash, which brought on rheumatism and impaired my digestive organs. Every joint in me was swollen and full of pain. I was in a horrible condition; when I had been given up to die, my physicians, who had seen the workings of the medicine in other cases, thought it would be a splendid time to test the virtues of Swift's Specific. When I commenced taking S. S. S. the physician said I could not live two weeks under the ordinary treatment. He commenced to give me th medicine strictly according to directions, which I took for several months. I took nothing else, and commenced to improve from the first. Occasionally I would have a backset from imprudence. Soon rheumatism left me, my appetite became all right, and the ulcers, which the doctor said were the most frightful he had ever seen, began to heal, and by the first of October, 1884, I was a well man again. I am stronger now than I ever was before, and weigh more. I have not failed to report for duty since that time, being engaged in the oil warehouse of Chess-Carley Company. I have been, and still am, doing some of the hardest work any man ever did, and am ready to answer any question that may be asked concerning this cure. Swif's Specific has saved me from an early grave.

LEM MCCLENDON.

Atlanta, Ga., April 18, 1885.

Lem McClendon has been in the employ of the Chess Carley Company for some years, and I know the above statements to be true. At the time he began taking Swift's Specific he was in a horrible condition, and at my solicitation his treatment with S. S. S. was undertaken by a physician after several others had declared his case to be hopelessly incurable. He took nothing but S. S. S., and has been as sound as a new dollar for several months. I regard his cure almost miraculous.

CAUTION!

Consumers should not confuse our Specific with the numerous imitations, substitutes, potash and mercury mixtures, which are gotten up to sell, not on their merit, but on the merit of our remedy. An imitation is always a fraud and a cheat, and they thrive only as they can steal from the article imitated.

BALLARD SMITH has had a varied career. He has been city editor and managing editor of the old *Louisville Ledger*, the *Courier-Journal*, the *New York World*, *Sun*, and *Herald*, and he is now back in the *World* office hard at work as night editor of that paper. He is climbing toward the managing editorship, which Colonel John A. Cockerill is only too willing to surrender. Colonel Cockerill gets $10,000 a year, but Mr. Pulitzer will not reduce his salary whatever work he does upon the paper.

Promptness in business is almost sure to lead to success; at least it will inspire confidence. When you find a medicine like Red star Cough Cure acting at once on the system and removing the disease, you have faith in it and half the battle is then over.

ELLA WHEELER WILCOX has written a novel that is just coming from the press. Those who have seen the proofs say it will go like her "Poems of Passion." It is awfully realistic, and so warm that its winter reader will not need any other fire. Mrs. Wilcox's finest work has hitherto been done in verse, but in this prose-poem of love she has, it is said, put forth a power that it was not known she possessed.

Breaking Your Window.

Why is death like a man breaking your window? He puts an end to your pains (panes). Dr. Bigger's Huckleberry Cordial will put an end to the pains in the bowels.

A WRITER for Alexandre Dumas' short-lived journal, the *Mousquetaire*, recollects that the editor fixed liberal prices on accepted articles, but that the cashier usually showed an empty money-drawer when asked to pay. Dumas kept a notice in the paper that no books or theater tickets would be accepted as gifts, because he preferred that his critics should buy what they needed; but a request for money with which to obey this rule always made the cashier grin.

Deserving of Confidence.—There is no article which so richly deserves the entire confidence of the community as BROWN'S BRONCHIAL TROCHES. Those suffering from asthmatic and bronchial diseases, coughs and colds, should try them. Price 25 cents.

EX-SENATOR SHARON, of California, who recently entertained the English Sir Thomas and Lady Hesketh, his daughter, received from his lordship a bundle containing suits of servants' livery. He sent them to his residence at Menlo Park, and when one of the servants ventured out in the color and stockings of Europe he was mobbed in grand style by the boys of the neighborhood.

Sought for the last hundred years.—A remedy for cattarrh, hay fever and cold in the head, found at last in Ely's Cream Balm. Safe and pleasant to use, and easily applied with the finger. It gives relief at once and a thorough treatment positively cures. Price 50c.

For all forms of nasal catarrh where there is dryness of the air parsiage with what is commonly called "stuffing up," especially when going to bed, Ely's Cream Balm gives immediate relief. Its benefit to me has been priceless.—A. G. Chase, M. D., Millwood, Kas.

A Good deal of pity has been expressed for the regulars who have been stationed on gaurd at the graves of two of the ex-Presidents. A curious stranger lately asked a soldier, who was trudging placidly through the mud in front of Garfield's tomb, if the task wasn't a severe one. He was answered that the hours of duty were few and far between. It was pleasanter than barrack life, and the men rather liked it.

TAKE SIMMONS LIVER REGULATOR

For all Diseases of the

Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. WHITE SEAL BURNING OIL

The New York board of health estimates that 30,000 lives have been destroyed by the explosive qualities of petroleum. If every household would adopt the White Seal oil for family use, none of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL

has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breaking of chimneys.

WHITE SEAL BURNING OIL

is a rich oil for illuminating purposes. It is as light in color as pure spring water. It gives a strong steady light, and burns much longer than common oils.

If the White Seal Burning Oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two neat five gallon cans.

Scenes in Siam.

In Siam they cut the tails of the cats so as to leave each tail an inch long. Then they dye the animals a bright yellow, which makes them look very gay. The ten-inch lizards of Siam crawl on the ceilings and eat flies and mosquetoes. Siamese Princess of royal blood wear less clothes than a New York street arab. The doctors in Siam prescribe such queer things as crushed spiders, peices of reptiles, ground serpents, bones, scrapings of the hornes of wild goats, stags and rhineoceroses and the scales of fishes and insects. How much better to tell their patients to take Brown's Iron Bitters and be well.

Narrow Escape.

* * * ROCHESTER, June 1, 1882. "Ten Years ago I was attacked with the most Intense and deathly pains in my back and —Kidneys.

"Extending to the end of my toes and my brain!
"Which made me delirous!
"From agony! ! ! !
"It took three men to hold me on my bed at times!
"The Doctors tried in vain to relieve me, but to no purpose.
Morphine and other opiates!
"Had no effect!
After two months I was given up to die! ! !
When my wife heard a neighbor tell what Hop Bitters had done for her, she at once got and gave me some. The first dose eased my brain and seemed to go hunting through my system for the pain.

The second dose eased me so much that I slept two hours, something I had not done for two months. Before I had used five bottles, I was well and at work as hard as any man could, for over three weeks; but I worked too hard for my strength, and taking a hard cold, I was taken with the most acute and painful rheumatism all through my system that ever was known.

"I called the doctors again, and after several week they left me a cripple on crutches, for life, as they said. I met a friend and told him my case, and he said Hop Bitters had cured him and would me. I poohed at him, but he was so earnest I was induced to use them again.

In less than four weeks I threw away my crutches and went to work lightly and kept on using the bitters for five weeks, until I became as well as any man living and have been so for six years since.

It has also cured my wife, who had been sick for years; and has kept her and my children well and healthy with from two to three bottles per year. There is no need to be sick at all if these bitters are used. J. J. BERK, Ex-supervisor.

Democratic Clubs of Cincinnati Vote $7,500 to Do It.

The Committee of One Hundred Proceed Against the Negligent Chief of Police.

THE PRISON YAWNS.

The Election Frauds at Cincinnati to be Prosecuted.

By Telegraph to The Sentinel.

CINCINNATI, Oct. 17.—Three democratic clubs held meetings last night and adopted resolutions charging gross frauds by the republicans in the recent election in Hamilton county, in debauching judges and clerks and in purchasing votes. They declared in favor of the prompt prosecution of all offenders. To this end the Jefferson club appropriated $2,500, the Duckworth club $3,500 and the West End club $1,500.

ARRAIGNING THE GUILTY.

The attorneys of the committee of one hundred engaged in the prosecution of offenders against the election laws at the recent election, appeared in police court and preferred charges to-day against Edwin Hudson, chief of police, for dereliction of duty in failing to serve warrants placed in his hands by the committee, October 8 and 9, for the arrest of seven men charged with violation of the registry law. The attorneys stated that one of the men against whom warrants were issued is now a policeman, another served as a special policeman on election day and one or two others were well known to Colonel Hudson and the police. Colonel Hudson explained that he gave the warrants to lieutenants. The court ordered the lieutenants to be brought in to answer and continued the case against Hudson until Monday.

WASHINGTON, Oct. 17.—The president appointed James N. Childs, of Maine, United States consul at Guelph, Canada, and James H. Trumbull United States consul at Talcahuano, Chili.

ANOTHER HEAD WHACKED OFF.

WASHINGTON, Oct. 16.—The secretary of the treasury has requested the resignation of Mr. Benjamin P. Davis, deputy fourth auditor of the treasury and has selected his successor, but the name is withheld for the present. The request for Mr. Davis' resignation was made one week ago, but has not been complied with. It is said at the treasury department to-day, that changes will be made gradually in a number of other offices of a similar grade.

BOYCOTTING THE CHRISTIANS IN CHINA.

The report has been received by the secretary of state from the consul at Canton, China, that circulars have been issued by Shanghai and Chunghow committees regarding the persecution of Christians in China. The consul says the material in the pamphlet is from the pens of eminent American, English and German missionaries and is published with the purpose of disseminating information that will lead to better provision being made by the western powers for protecting the native Christians from persecution in China. The persecutions of which the missionaries complain, comprise the robbing or destruction of chapels, robbing, beating, blackmailing and boycotting of native Christians, often with the encouragement of the local authorities and the refusal of the authorities to punish the offenders, protect the Christians or take measures to secure restitution. It is not intended to leave the impression that the Chinese authorities have, in every case, been unwilling to deal justly by native Christians; on the contrary the act infrequent aid rendered by local officials in suppressing outbreaks is gratefully acknowledged.

IMPORTANT TO SOLDIER CLAIMANTS.

Second Comptroller Maynard has made a decision in the case of Major J. L. Middleton, late fireman in the United States navy, that upon the discharge of the claimant the government cannot retain any part of the local bounty received at the time of the enlistment. Middleton enlisted in Aug. 1864, for two years and, received $301 bounty to the town from which he was credited. He was discharged in Aug. 1865, because the government no longer required his services. When paid off the paymaster deducted from his pay $150, being one-half the bounty received. The comptroller holds that the deduction was unauthorized by law; that the local bounty of the claimant belonged to him by virtue of a contract made with the municipality paying it, and that the United States could not lawfully appropriate any part of it, to its own use.

NOTES

The president has virtually decided on a postponement of the appointment of a superintendant of the coast and Geological Survey until after the meeting of congress.

Postmaster General to-day appointed the following fourth class postmasters: Ohio; Jenera, John Pribe; Mexico, Jacob Blum; McComb, Andrew Ewing Old Fort, Thad E. Martin.

Almost a Riot.

By Telegraph to The Sentinel.

COLUMBUS, Ohio October 16. Great excitement was created in front of the Democratic headquarters, at 3 o'clock this afternoon, and a riot narrowly avoided. Soon in the afternoon, some one about the headquarters, caused to be strung across the street, in large form, a bloody shirt with the inscription: "New North, New South, a new deal. The last of the bloody shirt."

It is stated that a G. A. R. man called and gave the committe a half hour to have the shirt taken down and by order of a member of the committee it was being done when a man from the Republican headquarters grabbed the garment and after soaking it with coal oil, returned and burned the shirt in front of the Democratic headquarters. A crowd of several hundred gathered and the greatest excitement prevailed.

The counsels of cooler heads prevailed, and after much loud talk and threats the crowd dispersed.

The yelling caused the people to leave their business while many locked their doors. The Republicans denounce it as an insult, and both sides are condemned by better citizens, for participating in a move, which in the present political heat, might have led to great loss of life and property.

LONDON, Oct. 17. The *News* says Lord Hartington no longer leads the liberals, but that the honor rests on Lord Chamberlain. The article is inspired by both men.

CONSTANTINOPLE, October, 16.—A large force of Turkish troops has been ordered to advance in the direction of Nissa. A battle between the Servians and Turks is imminent.

The ambassadors have presented a note to the, Porte in which they say further time will have to be afforded them, so as to obtain, a complete, European understanding respecting the Roumelian difficulty, and then advise the Sultan to continue his peaceful policy. They do not, however, dispute the Porte's right to send troops into Roumelia, to assert his rights to that province. It is generally believed the powers have advised Bulgaria, Servia and Greece, more strongly than heretofore, to remain quiet. The Porte's note regarding the arrangements of Greece and Servia gave the powers ground to protest against their warlike attitude. The report that Greece offered to form an alliance with Turkey is unfounded. The Porte considers the note of the ambassadors satisfactory, but has intimated he will not recognize the Bulgarian union, no matter what the ultimate result of the conference may be. M Nelidoff, the Russian ambassador, has refused to receive M. Petroff and M. Tahamskoff, delegates who had been commissioned by Prince Alexander to assure the Porte that peace and order reigned in Roumelia.

LONDON, October 16.—The Servians crossed the Bulgarian frontier near Charkoi. They are advancing toward Sofia and are now near Dragoman pass. King Milan is in command. A panic prevails at Sofia. Two battalions of infantry have gone to defend Dragoman pass. It is expected that Sofia will be captured by a coup de main, as Austria has warned King Milan that whatever may be the issue of the present trouble, it will be useless for him to expect support from Austria. The railway companies in Austria and Hungary, and the Danubian navigation company have been notified to prepare for the transportation of troops and munitions of war.

A Big Swindle.

By Telegraph to The Sentinel.

BOSTON, October 16. The Commercial Bulletin says it has information through letters from Para, of alleged frauds upon the Brazilian government, through the evasion of the export duty of 22 cents a pound upon India rubber, by an unnamed rubber house at Para, which is intimately connected with a New York firm. This firm handles about 4,000,000 pounds of rubber per annum and its evasions of the Brazilian revenue are put as high as $1,000,000, within the past two or three years. It has been enabled to do this, so it is said, through the connivance of Brazilian officials.

Den of Thieves.

DETROIT, Mich., October 16.—Last night the Arctic restaurant, a thieves resort, was the scene of a desperate fight between the police and a gang of burglars they were after. The place has long been under surveillance, and last night officers were detailed to capture all who could be found. Over the saloon is a poker room, and in this were several burglars, who offered resistance. The door was burst in, but the officers were driven back and with the help of part of the force who were without the building, the men were finally forced out of the room. They came out with loaded revolvers but were received in like manner, the officers shooting two of them, one fatally. A woman belonging to the house was slightly wounded. Charles Strong, shot below the left shoulder blade, died at half-past ten this morning. The others arrested were "Con" Cane and "Billy" McBrearty. Strong, Cane and McBrearty are noted criminals, who have eluded justice for some time. A large amount of stolen property was recovered and burglar's tools found.

DETROIT, October, 16—The report of the death of "Billy" Strong, who was shot by the police last night, was premature. Although severely wounded, it is now thought he may recover.

BRIEF TELEGRAMS.

DETROIT, Oct. 16.—The Post's Cadillac special says: Last night the men employed in the Missaukee county lumber woods by Swan, White & Smith and the Thayer lumber company, were given the alternative of signing a contract evading the ten hour law or quitting work. About two hundred chose the latter and are peacefully leaving the woods. Advanced wages were offered them to remain, but to no purpose. The firms have but five or six men left and will have to stop work until they can get new forces.

MILWAUKEE, October 16.—A special from Mariuette and Menominee show conclusively that there is no truth in the rumors that smallpox is raging in that section. There have been but two cases, one of which is attended to in a house outside the city, the other being guarded by watchmen to prevent any persons being exposed.

DUBUQUE, October 16.—A ghastly discovery was made at Dyersville, last night. Some children were fishing in a pond and dragged up a box which contained the remains of nine dead bodies. The box had been air tight and had contained alcohol. Suspicion points towards a doctor who removed to Nebraska, two years ago, who had been suspected of being a malpractitioner.

DETROIT, October 16. Last night, at 10 o'clock, at Trenton, a saloonkeeper, named "Jud" Osborn, was shot while on his way home. The ball entered the back of his neck and severed the jugular vein, killing Osborn almost instantly. Ed. Flaherty, an employe in the stave mill, has been arrested on suspicion.

INDIANAPOLIS, October 16. The attorneys of Thomas Cottrell to-day filed a petition in the circuit court for an application for a recount of the ballots cast at the city election on Tuesday, when Cottrell was defeated for mayor by sixty votes. Fraud is not charged, but it is claimed that mistakes were made in computing the number of votes cast.

Greiner was wonderfully cool and possessed, mingling with friends in the jail, and at 11:30 he sent word to the sheriff he was ready. He came on the scaffold smoking a cigar and uttered only a sentence, bidding all good bye.

SIOUX CITY, Iowa, October 16.—A most horrible murder occurred in West Fork township last night. James and John Johnson, brothers, lived together on a farm. John was married and James single. Yesterday they had a house raising after which a keg of beer was tapped. The two brothers quarreled and James was ordered from the house. He went out on the prairie and remained till 11 o'clock. He then returned to the house and found his brother John asleep in bed. Taking a rifle he loaded it, placed the muzzle to John's head and blew his brains out. The murderer remained at the house two hours and then informed the neighbors that his brother was dead. He was placed under arrest and subsequently made a confession of his crime.

On the way to the city with an officer they met a wagon with a coffin for the dead man, and Johnson being told that he would never see his brother again, replied, "Yes, I will. I will meet him in hell." The wife of the man stood by and saw the crime, agreeing that it was the proper thing to She has not been arrested.

"THE LORD'S RAZOR."

His Weapons Not for Mortal Hands.

And Not to be Used Recklessly on Other Men.

His Judgments are for Him Alone to Pronounce and Execute.

Dr. Talmage preached last Sunday morning on the subject, "The Lord's Razor." The Brooklyn Tabernacle was crowded. At all the services held there are present people from all parts of this land and from foreign lands. One characteristic of the audience is the great number of clergymen present. Before the sermon Dr. Talmage read and expounded the twenty-fourth chapter of the First Book of Samuel, the story of David allowing Saul, his enemy, to escape, taking only a piece of his robe, by which Saul might afterward see that David had him in his power. The opening hymn was:

"The morning light is breaking,
The darkness disappears,
The sons of men are waking
To penitential tears."

Dr. Talmage's text was from Isaiah vii. 20: "In the same day shall the Lord shave with a razor that is hired, namely, by them beyond the river, by the king of Assyria." He said:

THE BIBLE AS FIGURES.

The bible is the boldest book ever written. There are no similitudes in Ossian or the Iliad, or the Odyssey, so daring. Its imagery sometimes seems on the verge of the reckless, but only seems so. The fact is that God would startle and arouse and propel men and nations. A tame and limping similitude would fail to accomplish the object. While there are times when He employs in the bible, the gentle dew and the morning cloud and the dove and the day-break, in the presentation of the truth, we often find the iron chariot, the lightning, the earthquake, the spray, the sword, and, in my text, the razor.

This keen-bladed instrument has advanced in usefulness with the ages. In bible times and lands the beard remained quent, save in seasons of mourning and humiliation, but the razor was always a suggestive symbol. David says of Doeg his antagonist: "Thy tongue is a sharp razor, working deceitfully;" that is, it pretends to clear the face, but it is really used for deadly incision. In this text this weapon of the toilet appears under the following circumstances: Judea needed to have some of its prosperities cut off and God sends against it three Assyrian kings; first Sennacherib, then Esarhaddon and afterward Nebuchadnezzar. These three sharp invasions, that cut down the glory of Judea, are compared to so many sweeps of the razor across the face of the land. And these circumstances were called a hired razor, because God took the kings of Assyria, with whom he had no sympathy, to do the work and paid them in palaces and spoils and annexations. These kings were hired to execute the divine behests. And now the text, which on its first reading may have seemed trival or inapt, is charged with momentous import: "In the same day shall the Lord shave with a razor that is hired, namely, by them beyond the river, by the king of Assyria."

Well, if God's judgments are razors, we had better be careful how we use them on other people. In careful sheaths these domestic weapons are put away, where no one by accident may touch them, and where the hands of children may not reach them. Such instruments must be carefully handled, or not handled at all. But how recklessly some people wield the judgments of God! If a man meet with a business misfortune how many here are ready to cry out, "That is a judgment of God upon him because he was unscrupulous, or arrogant, or overreaching, or miserly. I thought he would get cut down. What a clean sweep of everything! The city house and his country house is gone. His stables emptied of all the fine bays and sorrels and grays that used to prance by his door. All his resources overthrown and that he prided himself on tumbled into demolition. Good for him."

Stop, my brother! Don't sling around so freely the judgments of God, for they are razors. Some of the most wicked business men succeed, and they live and die in prosperity, and some of the most honest and conscientious are driven into bankruptcy. Perhaps his manner was unfortunate, and he was not ready as proud as he looked to be. Some of those who carry their head erect and look imperial are humble as a child, while many a man in seedy coat and slouch hat and unblacked shoes is as proud as Lucifer. You can not tell by a man's look. Perhaps he was not unscrupulous in business, for there are two sides to every story, and every body that accomplishes anything for himself or others gets industriously lied about. Perhaps his business misfortune was not a punishment, but the fatherly discipline to prepare him for heaven, and God may love him far more than he loves you who can pay dollar for dollar, and are put down in the commercial catalogues as All Whom the Lord loveth he gives $100,000 and lets die on an embroidered pillow? No; whom the Lord loveth he chasteneth.

LET YER KEEP YOUR HAND OFF THE LORD'S RAZORS,

Lest they cut and wound people that do not deserve it. If you want to shave off some of the bristling pride of your own heart do so, but be very careful how you put the sharp edge on others.

How I do dislike the behavior of those persons who, when people are unfortunate, say: "I told you so; getting punished; served him right." If those I-told-you-sos got their deserts they would long ago have been pitched over the battlements. The mote in their neighbor's eye, so small that it takes a microscope to find it, gives them more trouble than the beam which obscures their own optics. With an air sometime supercilious and sometimes Pharisaical, and always blasphemous, they take the razor of divine judgment and sharpen it on their own hard hearts, and then go to work on men sprawled out at full length under gigantic disaster, cutting mercilessly. They begin by soft expressions of sympathy and pity and half praise, and lather the victim all over before they put on the sharp edge. Let us be careful how we shoot at others, lest we take down the wrong one, remembering the servant of William Rufus, who shot at a deer, but the arrow glanced against a tree and killed the king. Instead of going out with shafts to pierce and razors to cut, we had better imitate the friend of Richard, Coeur de Lion, who in the war of the Crusades was captured and imprisoned, but none of his friends knew where. So his disciple went around the land, from penitentiary to penitentiary, and sang at each window a snatch of song that Richard, Coeur de Lion, had taught him in other days. And one day coming before a jail where he suspected his king might be incarcerated he sang two lines of song, and immediately King Richard responded from his cell with the other two lines, and so his whereabouts were discovered, and immediately a successful movement was made for his liberation.

So let us go up and down the world with the music of kind words and sympathetic hearts, serenading the unfortunate and trying to get out of trouble men who have noble natures, but by unforeseen circumstances have been incarcerated, thus liberating kings. More hymn-book and less razor.

Especially ought we to be apologetic and merciful toward those who, while they have great faults, have also great virtues. Some people are barren of virtues. No weeds, verily, but no flowers. I must not be too much enraged at a nettle along the fence if it be in a field containing forty acres of ripe Michigan wheat. At the present time, naturalists tell us, there is on the sun a spot twenty thousand miles long, but from the brightness and warmth I conclude it is a good deal of a sun yet.

GOD'S PROVIDENCE PRECISE.

Again, when I read in my text that the Lord shaves with the hired razor of Assyria, the land of Judea, I bethink myself of the precision of God's providence. A razor swung the tenth part of an inch out of the right line means either failure or laceration, but God's dealings never slip, and they do not miss by the thousandth part of an inch the right direction. People talk as though things in this world were at loose ends. Cholera sweeps across Marseilles and Madrid and Palermo, and we watch anxiously. Shall the epidemic sweep Europe and America? People say: "That will entirely depend on whether the inoculation is a successful experiment; that will entirely depend on quarantine regulations; that will depend on the early or late appearance of frost; that epidemic is pitched into the world and it goes floundering across the continents, and it is all guesswork, and an appalling perhaps." My friends, I think perhaps that God had something to do with it, and that His mercy may have in some way protected us, that He may have done as much for us as the quarantine and the health officers. It was right and a necessity that all caution should be used, but there has come enough moisture from Italy, and enough grapes from the south of France, and enough rags from fatherless nations, and hidden in these articles of transportation enough choleraic germs to have left by this time all Brooklyn mourning at Greenwood, and all Philadelphia at Laurel Hill, and all Boston at Mount Auburn. I thank all the doctors and quarantines, but more than all, and first of all, and last of all, and all the time, I thank God.

In all the six thousand years of the world's existence there has not one thing merely "happened so." God is not an anarchist, but a King, a Father. When little Tad, the son of President Lincoln, died, all the land sympathized with the sorrow in the white house. He used to rush into the room where the cabinet was in session, and while the most eminent men of the land were discussing the questions of national existence. But the child had no care about those questions. Now, God the Father and God the Son and God the Holy Ghost are in perpetual session in regard to this world and kindred worlds. Shall you, His child rush in to criticise, or arraign, or condemn the divine government? No. The cabinet of the eternal? There can govern and will govern in the wisest and best way, and there never will be a mistake, and, like a razor skillfully swung, shall cut that which ought to be cut and avoid that which ought to be avoided. Precision to the very hair-breadth. Earthly time-pieces may get out of order and strike wrong, saying it is one o'clock when it is two, or two when it is three. God's clock is always right, and when it is one it strikes one, and when it is twelve it strikes twelve, and the second-hand is as accurate as the minute-hand.

THE JUDGMENT OF THE NATIONS.

Further, my text tells us that God sometimes shaves nations. "In the same day shall the Lord shave with a razor that is hired." With one sharp sweep he went across Judea, and down went its pride and its power. In 1861 God shaved our nation. We had allowed to grow Sabbath desecration, and oppression, and blasphemy, and fraud, and impurity and all sorts of turpitude. The South had its sins, and the North its sins, and the East its sins, and the West its sins. We had been warned again and again, and we did not heed. At length the sword of war cut from the St. Lawrence to the gulf, and from Atlantic seaboard to Pacific seaboard. The pride of the land, not the cowards, but the heroes, on both sides went down. And that which we took for the sword of war was the Lord's razor. In 1862 again it went across the land. In 1863 again. In 1864 again. Then the sharp instrument was ceased and put away. Never in the history of the ages was any land more thoroughly shaved than during those four years of civil combat; and, my brethren, if we do not quit some of our individual and national sins the Lord will again take us in hand. He has other razors within reach besides war: epidemics, droughts, deluges, plagues—grass-hoppers and locusts—or our overtowering success may so far excite the jealousy of other lands that, under some pretext, the great nations of Europe and Asia may combine to put us down.

This nation, so easily approached on north and south and from both oceans, might have on hand at once, more hostilities than were ever arrayed against any one power. We have recently been told by skillful engineers that all our fortresses around New York harbor could not keep the shells from being hurled from the sea into the heart of these great cities. Insulted China, the wealthiest of all nations, as will be realized when her resources are developed, will have adopted all the modes of modern warfare and at the Golden Gate may be discussing whether Americans must go. If the combined jealousies of Europe and Asia should come upon us we should have more work on hand than would be pleasant. I hope no such combination against us will ever be formed, but I want to show that as Assyria was the hired razor against Judea and Cyrus, the hired razor against Babylon and the Huns, the hired razor against the Goths, there are now many razors that the Lord could hire, if because of our national sins, he should undertake to shave us. In 1870 Germany was the razor with which the Lord shaved France. England is the razor with which very shortly the Lord will shave Russia.

But nations are to repent in a day. May a speedy and world wide coming to God hinder on both sides the sea all national calamity. But do not let us as a nation, either by unrighteous law at Washington or bad hires among ourselves, defy the Almighty. One would think that our national symbol of the eagle might sometimes suggest another eagle—that which ancient Rome carried. In the talons of that eagle were clutched at one time Britain, France, Spain, Italy, Dalmatia, Rhetia, Noricum, Pannonia, Mysia, Dacia, Thrace, Macedonia, Greece, Asia Minor, Assyria, Phœnicia, Palestine, Egypt and all Northern Africa, and all the islands of the Mediterranean—indeed, all the world that was worth having a hundred and twenty millions of people under the wings of that one eagle. Where is she now? Ask Gibbon, the historian, in his prose poem, the "Decline and Fall of the Roman Empire." Ask her gigantic ruins struggling their sadness through the ages, the screech owl at windows out of which world wide conquerors looked. Ask the day of judgment when her crowned debaucheries, Commodus and Pertinax and Caligula and Diocletian shall answer for their infamy? As men and as nations let us repent, and have our trust in a pardoning God rather than depend on former successes for immunity. Out of the thirteen greatest battles of the world Napoleon had lost but one before Waterloo. Pride and destruction often rid in the same saddle.

GOD'S SERVANTS.

But notice once more, and more than all in my text, that God is so kind and loving that when it is necessary for Him to cut He has to go to others for the sharp-edged weapon. "In the same day shall the Lord shave with a razor that is hired." God is love. God is pity. God is help. God is shelter. God is refuge. There are no sharp edges about Him; no thrusting points; no instruments of laceration. If you want balm for wounds, He has that. If you want salve for divine eyesight, He has that. But if there is sharp and cutting work to do which requires a razor, that He hires. God has nothing about Him that hurts save when dire necessity demands, and then He has to go clear off to some one else to get the instrument. This divine geniality will be no novelty to those who have pondered the Calvarean massacre, where God submerged himself in human tears, and crimsoned himself from punctured arteries, and let the terrestial and infernal worlds maul Him until the chandeliers of the sky had to be turned out, because the universe could not endure the indecency. Illustrious for love He must have been to take all that as our substitute, paying out of his own heart the crimson price of our admission at the gates of heaven. King Henry II., of England, crowned his son as king, and on the day of the coronation put on a servant's garb and waited, he, the king, at the son's table, to the astonishment of all the princes. But we know of a more wondrous scene, the King of heaven and earth offering to put on you, his child, the crown of life, and in the form of a servant waiting on you with blessing. Extol that love, all painting, all sculpture, all music, all architecture, all worship! Dresdenian gallery let Raphael be'd him up as a child, and in Antwerp Cathedral let Rubens hand him down from the cross as a martyr, and Handel make all his oratorio vibrate around that one chord, "He was wounded for our transgressions, bruised for our iniquity." But not until all the redeemed get home and from the countenances of all the piled up galleries of the ransomed shall be revealed the wonders of redemption, shall either man or seraph or archangel know the height and depth and length and breadth of the love of God.

A MONUMENT STILL BUILDING.

At our national capital a monument in honor of him who did more than any one to achieve our American independence was for scores of years in building, and most of us were discouraged and said it would never be completed. And how glad we all were when, in the presence of the highest officials of the nation the work was done! But will the monument to Him who died for the eternal liberation of the human race ever be completed? For ages the work has been going up; evangelists and apostles and martyrs have been adding to the heavenly pile, and every one of the millions of the redeemed, going up from earth, has made to it contributions of gladness; and weight of glory is swung to the top of other weight of glory, and layers of hosannas on layers of hosannas, higher and higher as the centuries go by, higher and higher as the whole millenniums roll, sapphire on the top of jasper, sardonyx on the top of chalcedony, and chrysoprasus above topaz, until far beneath shall be the walls and towers and domes of the great capitol, a monument forever and forever rising, and and yet never done. "Unto Him who hath loved us and washed us from our sins in His own blood, and made us kings and priests forever." Alleluia, amen.

HEAD, FACE AND BODY RAW.

I continue to use your Cuticura Remedies last night. My head and face and some parts of my body were almost raw. My head was covered with scabs and sores, and my suffering was fearful. I had tried everything I had heard of in the East and West. My case was considered a very bad one. I have now not a particle of skin Humor about me, and my case is considered wonderful.

Frightful Case

Of a Colored Man!

I contracted a fearful case of blood poison in 1883. I was treated by some of the best physicians in Atlanta. They used the old remedies of mercury and potash, which brought on rheumatism and impaired my digestive organs. Every point in the case was against and full of pain. I was in a horrible condition; when I had been given up to die, my physicians, who had seen the workings of the medicine in other cases, thought it would be a splendid time to test the virtues of Swift's Specific. When I commenced taking S. S. S. the physician said I could not live two weeks under the ordinary treatment. He commenced to give me the medicine strictly according to directions, which I took for several months. I took nothing else, and commenced to improve from the first. Occasionally I would have a backset from imprudence. Soon the ulceration left me, my appetite became all right, and the abscess, which the doctor said were the most frightful he had ever seen, began to heal, and by the first of October, 1884, I was a well man again. I am stronger now than I ever was before, and weigh more. I have not failed to report for duty since that time, being engaged in the oil warehouse of Chess-Carley Company. I have been, and still am, doing some of the hardest work in the place, and did not hesitate to answer my question that may be asked concerning the cure. Swift's Specific has saved me from an early grave.

LEM MCCLENDON.

Atlanta, Ga., April 18, 1885.

Lem McClendon has been in the employ of the Chess-Carley Company for some years, and I know the above statement to be true. At the time he began taking Swift's Specific he was in a horrible condition, and at my solicitation his treatment with S. S. S. was undertaken by a physician after several others had declared his case to be hopelessly incurable. He took probably four S. S. S., and has been as sound as a dollar for seven months. I regard his cure as almost miraculous.

CAUTION!

Consumers should not confuse our Specific with the numerous imitations, substitutions, potash and mercury mixtures, which are gotten up to sell, not on their merit, but on the merit of our remedy. An imitation is always a fraud and a cheat, and they thrive only so long as they are permitted. The only antidote for poison in the blood is a pure blood, and for all blood diseases Swift's Specific is unequaled. Treatise on blood and skin diseases mailed free.

BALLARD SMITH has had a varied career. He has been city editor and managing editor of the old *Louisville Ledger*, the *Courier-Journal*, the *New York World*, *Sun*, and *Herald*, and he is now back in the *World* office hard at work as night editor of that paper. He is climbing toward the managing editorship, which Colonel John A. Cockerill is only too willing to surrender. Colonel Cockerill gets $10,000 a year, but Mr. Pulitzer will not reduce his salary whatever work he does upon the paper.

Promptness in business is almost sure to lead to success; at least it will inspire confidence. When you find a medicine like Red star Cough Cure acting at once on the system and removing the disease, you have faith in it and half the battle is then over.

ELLA WHEELER WILCOX has written a novel that is just coming from the press. Those who have seen the proofs say it will go like her "Poems of Passion." It is awfully realistic, and so warm that its winter reader will not need any other fire. Mrs. Wilcox's finest work has hitherto been done in verse, but in this prose-poem of love she has, it is said, put forth a power that it was not known she possessed.

Breaking Your Window.

Why is death like a man breaking your window? He puts an end to your pains (panes). Dr. Bigger's Huckleberry Cordial will put an end to the pains in the bowels.

A WRITER for Alexandre Dumas' short-lived journal, the *Mousquetaire*, recollects that the editor fixed liberal prices on accepted articles, but that the cashier usually showed an empty money-drawer when asked to pay. Dumas kept a notice in the paper that no books or theater tickets would be accepted as gifts, because he preferred that his critics should buy what they needed; but a request for money with which to obey this rule always made the cashier grin.

Deserving of Confidence.—There is no article which so richly deserves the entire confidence of the community as Brown's BRONCHIAL TROCHES. Those suffering from asthmatic and bronchial diseases, coughs and colds, should try them. Price 25 cents.

EX-SENATOR SHARON, of California, who recently entertained the English Sir Thomas and Lady Hesketh, his daughter, received from his lordship a bundle containing suits of servants' livery. He sent them to his residence at Menlo Park, and when one of the servants ventured out in the color and stockings of Europe he was mobbed in grand style by the boys of the neighborhood.

Sought for the last hundred years.—A remedy for catarrh, hay fever and cold in the head, found at last in Ely's Cream Balm. Safe and pleasant to use, and easily applied with the finger. It gives relief at once and a thorough treatment positively cures. Price 50c.

For all forms of nasal catarrh where there is dryness of the air passage with what is commonly called "stuffing up," especially when going to bed, Ely's Cream Balm gives immediate relief. Its benefit to me has been priceless.—A. G. Chase, M. D., Millwood, Kas.

A Good deal of pity has been expressed for the regulars who have been stationed on guard at the graves of two of the ex-Presidents. TAKE
SIMMONS
LIVER REGULATOR

For all Diseases of the
Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation is warranted as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, it is, therefore, the best preparatory medicine, whatever the sickness may be or to be. In all Constipation, because it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to take in any quantities at any season of the year, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is not an intoxicating beverage. Taken in time it will prevent disease. Dyspepsia, indigestion, biliousness, dissipation, headache, and generally tone up the system. If taken occasionally by persons exposed to MALARIA, will expel the poison, and protect them from attack.

A PHYSICIAN'S OPINION.

I have been practicing medicine for twenty years, and have never before found a purely vegetable compound that would take the place of Simmons Liver Regulator, promptly and effectually as to the Liver in action, and at the same time sustain the system. Combining the due proportion of the principles of the system. J. M. HOOD, M.D., Washington, Ark.

WHITE SEAL BURNING OIL

The New York board of health estimates that 40,000 lives have been destroyed by the explosive qualities of petroleum. If every home hold would adopt the White Seal oil for family use, none of those unfortunate accidents would occur.

WHITE SEAL BURNING OIL

has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breaking of chimneys.

WHITE SEAL BURNING OIL

is a rich oil for illuminating purposes. It is as gilt in color as pure sperm water. It gives a strong steady light, and burns much longer than common oils.

If this White Seal Burning Oil is not sold in your vicinity, send a postal card direct to us for a barrel or a case containing two neat five gallon cans.

Secrets in Siam.

In Siam they cut the tails of the cats so as to leave each tail an inch long. Then they dye the animals a bright yellow, which makes them look very gay. The ten-inch lizards of Siam crawl on the ceilings and eat flies and mosquetoes. Siamese Princess of royal blood wear less clothes than a New York street arab. The doctors in Siam prescribe such queer things as crushed spiders, pieces of reptiles, ground serpents, bones, scrapings of the hornes of wild goats, stags and rhinoceroses and the scales of fishes and insects. How much better to tell their patients to take Brown's Iron Bitters and be well.

Narrow Escape.

ROCHESTER, June 1, 1885. "Ten Years ago I was attacked with the most Intense and deathly pains in my back and Kidneys.

"Extending to the end of my toes and my brain!

"Which made me delirous!

"From agony! ! ! !

"It took three men to hold me on my bed at times!

"The Doctors tried in vain to relieve me, but to no purpose.

Morphine and other opiates!

"Had no effect!

After two months I was given up to die! ! !

When my wife heard a neighbor tell what Hop Bitters had done for her, she at once got and gave me a me. The first dose eased my brain and seemed to go hunting through my system for the pain.

The second dose eased me so much that I slept two hours, something I had not done for two months. Before I had used five bottles, I was well and at work as hard as any man could, for over three weeks; but I worked too hard for my strength, and taking a hard cold, I was taken with the most acute and painful rheumatism all through my system that ever was known.

I called the doctors again, and after several weeks they left me a cripple on crutches, for life, as they said. I met a friend and told him my case, and he said Hop Bitters had cured him and would me. I pooh'd at him, but he was so earnest I was induced to use them again.

In less than four weeks I threw away my crutches and went to work lightly and kept on using the bitters for five weeks, until I became as well as any man living and have been so for six years since.

It has also cured my wife, who had been sick for years; and has kept her and my children well and healthy with from two to three bottles per year. There is no need to be sick at all if these bitters are used. J. J. BERK, Ex-supervisor.

Prosecute the Swindlers!!!

If when you call for Hop Bitters the druggist hands out anything but "Hop Bitters" with a green cluster of Hops on white label, shun that druggist as you would a viper; and if he has taken your money for a worthless stuff, indict him for the fraud and sue him for damages for the swindle; and we will reward you liberally for the conviction.
